Honggong, July 19th, 1813.

THE audience so long spoken of, has at last been granted to the foreign Ministers at Pekin. The result is looked upon in different lights by different journals and different people, according to their general predilections, but on the whole there is a fanting that the ceremony has been unsatisfactory, and that there is reason for discontent that the privilege was not conceded in some more suitable form. One ground of this dissatisthat there was, therefore, a danger that the court to get redress, when you consider you ship, now there has been none in this instance. masses of the population would be under the this is right, and justice will always be dealt when quoits were in vogue, that to draw the impression that the Ministers had merely out to you, but you must not think you can competitors to other games archery was brought seen the EMPEROR for the purpose of bear. come to this colony and this court with impulin, and was competed for, protected by law, and ing tribute. That there is such a danger unfortunately seems evident; but that this this offence you will be fined in the sum of \$5. | trates to consider what they would like to do would be the case, must have been tolerably well-known from the first. It could not be would at once be so completely thrown aside and being obstreperous and breaking a chair. that an audience fully in the foreign style would be granted, and, even if such had been the case, it is doubtful whether the generality of people in China would have given credence to the fact. The point, however, with sions regard to which there is most reason to be disappointed, is undoubtedly the manner in official Gazette, which merely states that an audience was granted, and refrains from saying to whom. This is of essential importance, as it tends to bide up the fact as well as the form of the audience.

It cannot be denied in face of these facts, that the audience so long looked for, has been far less than was generally expected : but although we have not obtained all that we wished, there is still good reason to congratulate ourselves on what has been accomplished. It is a great advance upon what all, The receipt marked B. states as follows :- to Mr. Grimes. He contended that this esta- the receipt marked B. states as follows :- to Mr. Grimes. The truth is that a mistake has all along been made in anticipating too much in the way of immediate results from the concession of the right of audience. It is no doubt a step of a desirable nature, but not one which can at once revolutionise our relations. as was somewhat hastily concluded. We could not reasonably expect the Chinese to already revolutionised before so much could been done. THE CHRONICLE AND DIRECTORY" | known to the high authorities in the capital, and in some instances, at all events, to urgo them with effect. In the same way, although the audience is in some respects disappointing at the present moment, we may fairly look to its leading in due time to useful and practical results.

One great fact is not to be overlooked Whatever appearance the Pekin Authorities may give to the present audience to the masses in China, the argument that it is impossible to receive the Ministers cannot any longer be adduced. The Pekin Authorities cannot admit that they have not received them in a proper manner, and have in some degree practised a deception upon them. The present audience is supposed to be a bonn fide one, and they cannot at any future time go back upon it. To this extent the Ministers have undoubtedly gained their point, and a definite step has been made n advance.

We regret to hear that there appears to have been a misunderstanding with respect to the r made by Messrs. Jardine. Matheson & Co., with reference to taking over the minagement of the Pier and Godown, and that in consequence they have withdrawn from the mutter, It is possible that the misunderstanding arises simply from a want of care in framing the resoluvion passed at the meeting; but it seems that that resolution does not accurately define the position which Mesars, Jardines took in regard to it. If it is a mare oversight of this kind, it i to be hoped that the difficulty may be adjusted, as it would be unfortunate that a good opportunity of placing the Company apon a better booting should be lost.

THE AUDIENCE QUESTION. (N. C. Herald.) An audience of the Emperor of China is at length an accomplished fact. Various Foreign Ministers have seen the numperouchable one face to face, and the Brother of the Sun and Moon has ceased to be the myth he ones was. Report says the ceremonial was satisfactory to those who "implored" the favour. Let us hope as much, while we await the publicity which wino doubt soon be given to all the details attending so remarkable an event. Meanwhile we are entitled to cogitate as to the probable inflhence upon the Chinese people generally, and upon our relations with them, of this unusual concession to Western persistence, pitted as it has been against national prejudice and a blind unreasoning governmental policy. Chinese of all classes, and in all parts of the country, from Shantung to Yunnan, have no doubt watched with deep interest the contest between barbarian pretensions and celeatial propriety; and it is worth considering what will be the conclusious come to here, there, and everywhere, when His Majesty's lieges read that famous Edict which we foreigners have of late been so diligently criticising and picking to nieces. "Abya!" we can imagine a constant reader of the l'eking Gazette, District Magistrate of Nanchang-fu, erclaiming, "here are those rascally dogs of foreigners actually tensing to get a sight of the face of the Son of Heaven, and our too timid Ministers consenting to admit them to the privilege. What is the world coming to? Since the great Commissioner Lin and the gallant Sankolinsin left us, to wander amongst the genii, these wretched devils have led our officials by the nose, and had it all their own way. But of course the barbarian chiefs will be compelled to knock head in the sucred presence. How I should like to be there to see!" Another constant reader, one of the literati, say in Kai-fung-fu, we observe in spirit reading the Edict, butdashing down amongst the cups at his favorite teashop with a tremendous malediction; sent. and we hear him vooiferating: "I will write postebaste to my revered nucle, the Secretary to the Inner Council, and pray bim to move Censor Woo to deponde these wretched ministers as traiters to their country, for having even contemplated the possibility of an interview between the outside barbarian and the Son of brave troops and invincible ships had exterminated the hellish brood!" Next, let us listen to the soliloguy of a third, a quiet but wealthy Esq., and Captain J. C. CHINESE DEPUTATION TO H.E. THE GOVERNOR. A deputation, composed of five members of the retiring board of Directors of the Chinese Hospital, and eight of the new Board, waited on H.E. the Governor on the 10th inst. M: Tonnochy, the acting Registrar General, was present, and introduced the deputation.

H.H. said he was glad to see them all. The president of the retiring board, Mr Mok Sz Yeong, then informed H E, that the retiring board had formally made over the management of the Hospital, together with the funds and all/documents belonging to the inatitution, to the new board.

The president of the new board, Mr. Chew Sing Lum, merchant, then said that the new board had received everything in proper order. then proceeded to business, saying he would cabins. When these men were found out at The Governor said this was satisfactory, and take an early day to visit the Chinese Hospital The first subject brought up for discussion, was the actting aside of what was formerly the E-taze, to be a ward for the reception of small-

pox patients. His Excellency said there were always objections to the location of patients suffering from a disease so highly contagious in crowded localities: Last year he had a small ward set aside in the Government Civil Hospital for the reception of smail-pox patients, but representations from the medical men and the public were so strong, that be had it removed to Stoneoutters' Island, where a part of the building had been prepared for the reception of any small-pox patients that might be brought in. : Mr. Tonnocby suid the ward the deputation

spoke of, was suggested by either Dr. McCoy or Dr. Dods. The Committee were very reluctant to receive any small-pox putients into the smended in the sub-committee, stating that it Hospital and then either Dr. McCoy or Dr. Dode, he could recollect which, probably the latter, spoke to him about the place.

of the Governor a letter which they had received from the Chinese community at Yokohama respecting stowaways on broad the Pacific Mail etenmore, who were turned ashore at Yokohama when detected. Mr. Tonnochy said that frequently ignorant

people from the country, who desired to go to America, were befouled by the Chinese seamen and other employes on board the Pacific Mail steamers. The country people arriving here geuerally put up at certain boarding houses, and visited certain cating houses. These seamen, knowing the places of their resort, vould go there, and try to induce them to get tickets through them at a cheaper rate. They would represent to the country folks that they could get the tickets at \$25 or \$30, instead of at \$45. Thus these men readily believed them, "and gave them the money. They would then smuggle them on board, and stow them away in their nahore at Yokohama, leaving them in the hands of the Chinese community there. The speaker had spoken to the agent of the Pacific Mail Company, and although the utmost vigilance i was exercised, it was impossible to find the of BEST COAL in store for Saic. warning the Chinese. His Excellency replied that he had found that there were two classes of men in the world who could not be cured, viz., fools and knaves. The fool was foolish enough to believe what the knave might say to him, and in spite of warnings, the result was the same. This was not confined to China only, everywhere else it was the same. When two persons were determind to cheat you, it was very difficult to find them out. He did not believe that the notifica. tion proposed would do any good, but if they would send a druit to the Government through Mr. Tonnocky, he would then say if it could be
